## THE WATER LEAK ALERT

Helps Protect Homes Against Costly Water Damage

# Water Leak Alert

Peace of mind through audible alerts about water leaks.

The Water Leak Alert notifies you about potential water leaks in your home and is reusable. It can be used to detect leaks from water heaters, sump pumps, condensation pans or any spot in the home that has potential for water damage.

## DETECTS LEAKS

from sump pumps too

### DETECTION & PROTECTION

The average water leak causes \$7000 in damage.\* Audible alerts from the Water Leak Alert can help reduce your risk of costly repairs. The Water Leak Alert can be hardwired to self-powered water heaters with Resideo gas valves to turn the main burner off when a water leak is detected. That way cold water in your home will provide a secondary alert if you do not hear the audible alert.

### VERSATILE APPLICATIONS

Works with various water appliances like water heaters, sump pumps and other HVAC applications (with or without drain pans) and in multiple additional areas of the home where leaks are a risk.

\*American Insurance Association

### EXPANDABLE

The Water Leak Alert includes a 5-ft. water sensing cable that detects leaks across its entire length. Additional cables can be added for expanded coverage. Water Leak Alert will audibly alert them at the first sign of a leak.

### LOW MAINTENANCE

Battery operation makes maintenance easy.

### REUSABLE

The water leak cable is reusable after detecting an incident.

### Thermostat Connection

The Water Leak Alert can connect to the Prestige IQ with an EIM. That way, alerts pop up on the thermostat and homeowners can contact a contractor immediately, increasing service revenue.

Connect to Prestige IQ with EIM

## PRODUCT FEATURES

Battery	2AA Alkaline (included)
Battery Life	Up to 5 years w/o incident
Dimensions	3.6"W x 3.6"H x 1.25"D
Weight	0.32 lbs
Cable Sensor Accessory	5 ft
Buzzer Alarm	100 dBA
Ingress Protection Rating	IP44*
